## **HOLISTIC PROGRESS CARD**

The HPC maps the status of each child's learning for Foundational Literacy and Numeracy skills. It gives an overall description of an individual's performance over a period of time thus enabling teachers to identify the strengths, opportunities, barriers and skills or qualities that may be developed over a period of time. HPC presents a picture of a student's progress that provides evidence as well as an opportunity to the child to understand his/her growth over years. It communicates the strengths and areas of improvement for each child identified with participation and discussion between the teacher, the child and where possible, the parent. It provides teachers and parents with valuable information on how to support each student in and out of the classroom.
